DATE

Grandparents' Day at Choptank Elementary School

What happens when you ask for grandparents to come and celebrate Grandparents Day with their grandkids? You get a cafeteria full of fun, loving, cheek pinching grandparent, and students. On Friday, September 8, 2017, and Monday, September 11, 2017, more than 200 grandparents came out to Choptank Elementary School to share breakfast, coloring sheets, and photos with their respective grandchild(ren). Students and grandparents colored and completed activity sheets about grandparents. Then students and their grandparent had an opportunity to create a memory in the photo booth. This day is truly one of those special occasions that students will always remember. Each year students look forward to spending this special time with their grandparent(s) while creating lasting memories.
