## Hurlock Elementary School Families Participate in Donuts for Dads

On Friday, November 10, 2017, Hurlock Elementary School welcomed around 60 dads, granddads, uncles, and cousins for our Annual Donuts for Dads Event. During this activity the dads participated in math activities led by Mrs. Marshall our math coach, and learned how to help their student with daily reading through American Reading Company thanks to Mrs. Pusey our literacy coach. While learning about math and reading the dads enjoyed coffee, juice, donuts, and best of all quality social time with other dads. When the dads were done learning they went into their students' classrooms for a visit to see them in action. Hurlock would like to thank everyone who participated in making this a great event!
