NDMS Students Donate Food for the Holidays

Sixth grade students at North Dorchester Middle School recently collected 1367 nonperishable food items for their annual service learning project. The event was organized by the students, who enlisted the help of other students, staff and NDMS families to achieve their donation goals. The 6th grade voted to keep the food in their home community, donating it to Unity Washington Methodist Church in Hurlock to help supply the church's community outreach food distribution programs. Church volunteers picked up the food with the students assisting in loading the boxes. NDMS 6th grade thanks everyone who helped make their service learning project a success.

Student loaders include: James Creighton, Brayden Smith, Emilee Cohee, Olivia Price, Laila Stafford, Emely Velasquez, Gavin Adshead, Ande Callahan, Taylor Trippett, and Kenny Powell.
