Dorchester Career and Technology Center Welding Students Assist with the 70th Anniversary Celebration at C & K Lord “Students and business taking interest to make a better today and tomorrow”

Students from the Dorchester County Career and Technology Center (DCTC) were able to be a part of a very special event this week. Mr. Kenny Lord, shown with Ms. Addie Eckardt, celebrated 70 years of business at C and K Lord on Thursday evening.

This is an incredible milestone for what was once a small family started business, to now serving customers with metal fabrication, welding, and manufacturing across the United States.

C and K Lord is a valuable and active supporter of the welding program at DCTC, and our AWS Student Chapter with contributions of stainless steel and hosting Chapter meetings for the students.

Select students from the welding program were parking ushers for the event and then could see what dedication to a career can bring you by attending the Chamber of Commerce event.
